

Foodorder

The Flavors Of Your Wish

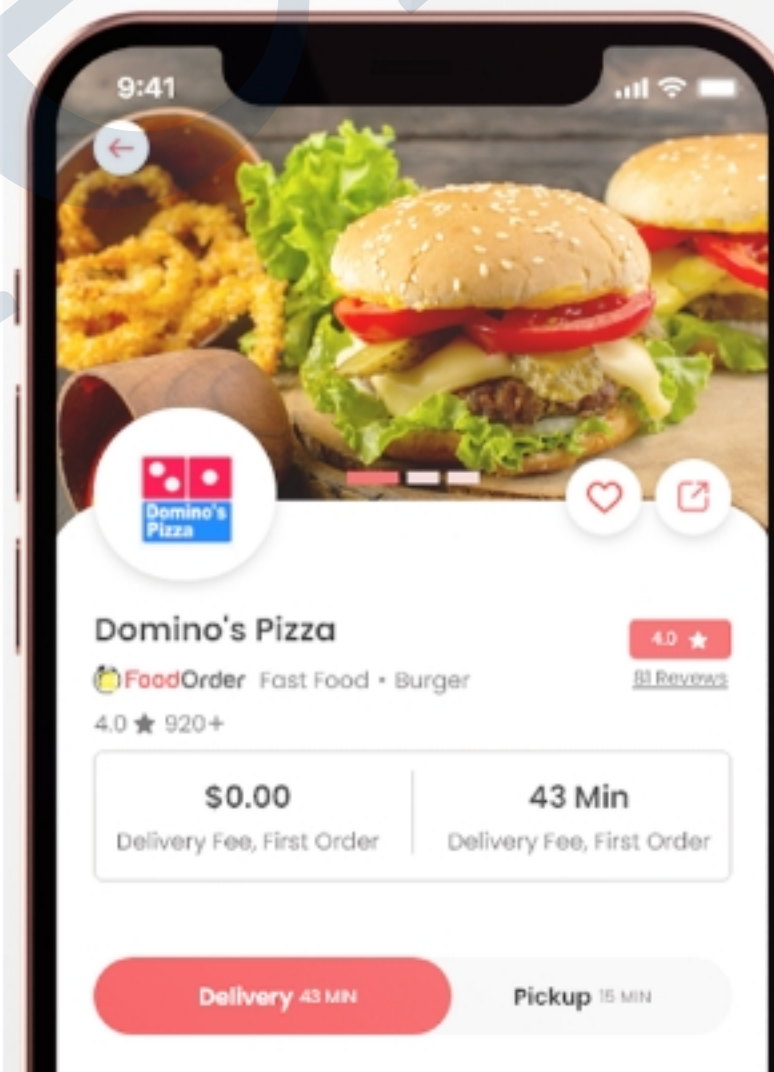

| About Project

Foodorder Is The Best App For Food Delivery. Users Can Easily Find Restaurants And Order Food. Our Goal Is To Organize A Convenient Product Search And An Intuitive Menu. Now Order Food At Home. The Purpose Of Our Application Is To Show How We Can Optimize This Process As Much As Possible, And Make Is Not Only Convenient But Also With A Beautiful Clean UI And Accessibility.

| The Problem

- Both locals and visitors don't have any information about newly opened restaurants in the city.
- There is not any option to plan your food order in advance.
- People who are health conscious can't get information about the food calorie and the nutrition content.
- Buzz workers don't have enough time to cook or buy food in person.

| The Goal

- An accessible and inclusive mobile app that lets users order meals quickly and easily.
- To provide the calorie and nutrient information and special requirement options so users can concentrate on their health.
- They will be able to order food and get it immediately depending on their needs.
- Whether it is your favorite local spot or a restaurant, within some time Order Food get's the eats you're looking for.

| Proposed Solution

No partnership with the 3rd party food delivery services because we want to provide best quality food to the customers at best prices.

An app for the customers so that they can order food in a more effective and efficient way from their home.

The application is very easy to use because customers age varies from 10 years kid to 60+ aged grandpa's.

Choices will be given to the customers whether they want to self pick up their order or they want it to get delivered because their will be free delivery within 3km.
